Art Unit: 2833

1. this is responsive to the amendment filed on October 13, 2005. Claims 1-2 and 13-14 have been amended, and claims 17 –51 have been withdrawn. Therefore, claims 1-51 are pending in this application.

2. Newly amended/submitted claims 1-16 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

I. Originally claims 1-16 are directed to an electrical header connector, classified in class 439, and subclass 608.

II. Newly amended claims 1-16 are directed to an electrical header connector is assembled with a socket connector, classified in class 439, subclass 609.

Inventions group I and group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention group II has separate utility such as header connector can be configured to mate with a socket connector or other header connector or printed circuit board or cable connector. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, because of their recognized divergent subject matter, and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, the newly amended claims 1-16 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

3. The rejection of claims 1-16 under 35 U.S.C. 103(a) as being unpatentable over Ramey et al. (USPN 6,146, 202), as stated in the Office action dated July 13, 2005, is incorporated by reference.

4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
